

Prezado Senhor,
Magnifica Reitor de UNIMEP

I just got unbelievable news from Piracicaba, were I spent three months ago one month as a guest-professor of CAPES and UNIMEP to join the last international conference organized by Prof Pucci and others and to teach during a workshop on empirical research in education.

These activities are part of a contracted partnership between us, the Johann Wolfgang Goethe-University Frankfurt and UNIMEP, we signed last summer during a programm here in Frankfurt with Prof. Pucci und Prof Lastoria, accompanied by a letter of will of the Rector of UNIMEP.

Here in frankfurt we decided to go into this partnership because we are convinced by the excellence of the work of Prof. Pucci and the group. So we will not believe that all this could be destroyed by your decision. Not to come back to the situation we had before would be a desaster for the reputation of UNIMEP, the brasilian educational field and the whole academic status of your university. Therefore I hesitate to communicate what I had to read about your decision. It would be a great help to hear from you, that you will find a solution outside the crash of all this marvellous work, Pucci and others made for UNIMEP.

sincerely

Prof. Dr. Andreas Gruschka
Dean of the Department of Education
Universidade de Leipzig, Alemanha
